courway

Project Overview:

"Courway" is an educational platform, designed to empower individuals to develop their skills through a variety of online courses. The platform aims to provide a premium learning experience combining quality, usability, and diversity.

Key Features:

❖ Instructor Dashboard:

- Enables instructors to easily create and manage courses.
- Tools to track student progress and engagement.

❖ Personalized Learning Experience:

- Course recommendations based on learners' interests.
- Options to track learning progress.

Target Audience:

- Learners: University students, working professionals, and individuals seeking skill development.
- Instructors: Experts and professionals interested in sharing knowledge and earning income through teaching.

Technical Implementation

- User Interface (UI): Simple and intuitive design for seamless navigation.
- Database: Using MySQL.
